If the stork is bringing you more than one new bundle
of joy, then this is the class for you.

Are you wondering?

How will I feed two at once?

What kind of stroller should we get?

How many of everything do we need?

What do I do when they are all crying?

How will my other children react?

Where can I go for help?

The seminar is taught by moms with multiples. Learn from our experience.

This class does not replace a basic prenatal class.

Classes run all the time, please call for other dates.

The class also includes a one year membership to POMBA, the Parents of Multiple Births Association. Come out and join the club!!
